

# **URGES HOSPITAL WARD IN FRANCE** Action in Capital Asked by American Corps. SUPPORT ALREADY PLEDGED Plan Provides for Members of Dis- trict National Guard.

Plans for establishing a thorough-  
ly equipping a ward in the American  
hospital at Neuilly, France, for mem-  
bers of the District National Guard  
were one step nearer materialization  
today.

At an enthusiastic meeting of the  
American Hospital Corps at Hauscher's  
yesterday afternoon, the need for the  
ward was emphasized and a number  
of society women and prominent  
men pledged their support to the suc-  
cessful consummation of the project.

Mrs. Archibald Hopkins stated that  
Washington was the only big city in  
the United States which has not al-  
ready established and equipped a  
ward in an American hospital abroad  
for its citizen soldiers.

Needs \$1,800 More.

She announced that some contribu-  
tions toward financing the project  
had been received, but \$1,800 more  
was needed. Indications yesterday  
were that this amount would be  
raised within a short time.

Capt. M. E. DeJarny, of the French  
army, emphasized the need for all  
possible hospital facilities, and dwell-  
ing on the comfort to soldiers in knowing  
a particular place had been reserved  
for them in case of injury in battle.

Capt. LeRoy Herron, commanding  
Group B, District National Guard  
Cavalry, said the citizen soldiers of  
the National Capital were ready to go  
overseas to fight for the ideals for  
which their country stands and ex-  
pressed appreciation of the work of  
mercy undertaken by the American  
Hospital Corps.

Er. Larkin Glazebrook and Major  
Granville Fortescue explained the  
need for wards reserved for particular  
organizations, to avoid delays and to  
insure the most prompt and effec-  
tious treatment. They said the ward  
for the District soldiers should be  
equipped with cots, bed linen, pajamas,  
surgical instruments, bandages, and  
all the other facilities and equipment  
of a modern hospital.

Opera Will Aid Cause.

Funds for the Red Cross to be used  
for the benefit of District soldiers  
sent overseas will be raised next  
week when the opera, "Priscilla" is  
presented. The opera will be given  
under the auspices of the Woman's  
Relief Association of the District Na-  
tional Guard. The performers will be  
members of the Priscilla Opera Com-  
pany, of Brookland. The production  
will be presented next Thursday  
night in Gossage Hall. Mrs. T. V.  
Walker has charge of the sale of  
tickets.

## **SAYS FUEL SHORTAGE THREATENS DISASTER**

Raymond Price Believes German  
Navy May Get Loose.

A prediction that if fuel in Europe  
becomes increasingly scarce that  
"hell will be let loose" on our own  
unprotected shores, startled those  
gathered at a conference of the na-  
tional committee of Patriotic and  
Defense Societies, when uttered at the  
Willard last night, by Raymond E.  
Price, chairman of the committee on  
inventions of the Aero Club of Amer-  
ica and vice president of the United  
States Rubber Company.

"Italian munition plants run part  
time for want of coal," said Mr.  
Price. "Germany is not worried over  
the Italian offensive because she  
knows it is limited by lack of coal."  
"If fuel becomes increasingly scarce  
the British fleet next fall will be  
so restricted that the German fleet  
can escape. Then, indeed, hell will  
be let loose on our own unprotected  
shores."

"Who says we have met our full  
obligation?" demanded Mr. Price.

"Under no conceivable conditions  
can we build all the ships we ought  
to have during the next eight months.  
How close we come to it depends in

part upon how well we, of the pa-  
triotic societies, bring the seed home  
to the people."

"The nation is fighting for its very  
existence," Mr. Price concluded, "and  
only by throwing into the breach  
more ships, more men, more money,  
and more supplies, all within the next  
eight months, can defeat be staved  
off."

Congressman Julius Kahn of Cali-  
fornia declared that we are fighting  
for the maintenance of American  
rights, the protection of American  
principles, and American honor, and  
the saving of American lives.

Geoffrey Butler, spokesman for the  
British war mission, told the dele-  
gates that England had a hard time  
bringing home the seriousness of the  
situation to the masses.

Other speakers were Mrs. George  
Thacher Guernsey, president general  
of the D. A. R.; S. Stanwood Menken,  
president of the National Security  
League; Mrs. Hugh L. Scott, National  
League for Woman's Service; the Rev.  
Randolph H. McKim, President Drink-  
er, of Lehigh University; H. H. Gross,  
president of the Universal Military  
Training League; W. S. Gifford, direc-  
tor, and George F. Porter, assistant  
director of the Council of National  
Defense.

## **ALLIES TO BASE FOOD POLICIES ON U. S. LAWS**

Congressional Action on Problem  
Being Anxiously Awaited.

By LOWELL MELLETT.

LONDON, June 15.—England is  
awaiting debate in the American Con-  
gress on the food bill with intense in-  
terest. The allies admittedly are an-  
xious as to America's policy in the  
food problem of the world. That an-  
xiety is reflected daily in the British  
newspapers.

The Mail and Post today, for in-  
stance, emphasize the vital importance  
of early Congressional action, so that  
the allies may know just how far they  
can depend on America's assistance,  
and thus be able to frame their own  
policies accordingly.

Allan Anderson, chairman of the  
allied wheat executive board, who ac-  
companied the Balfour mission to the  
United States, thus summed up the sit-  
uation today:

"I met many members of the Amer-  
ican grain trade and I believe they  
fully realize the allies' great and us-  
gent need. I was assured everywhere  
that private speculation was no longer  
attractive and that all desired to meet  
the crisis with the least possible dis-  
turbance to trade machinery."

"But how and when the problem of  
food control in the United States is  
to be settled is still obscure."

"America must settle the matter in  
her own way—but we who are depend-  
ing so much on the United States food  
supply are anxiously awaiting the so-  
lution. Until then we will be unable  
to map out a comprehensive program.  
The next cereal year is rapidly ap-  
proaching."

NEW BABY HONORS HOOVER.

Herbert C. Hoover has achieved fame.  
Mr. Hoover has just sent an auto-  
graphed photograph to the first baby  
named for him, Hoover G. Goffin, nine  
days old, of Portland, Me.

## **Resinol** the tested skin-treatment

If you want to experiment on your  
skin, there are plenty of treatments  
to experiment with. But if you want  
something whose value has been  
proven by years and years of suc-  
cessful use, if you want a treatment  
that doctors prescribe constantly,  
that you know contains nothing  
harsh or injurious, you will find it in  
Resinol Ointment, aided by Resinol  
Soap. It usually stops itching im-  
mediately, and rarely fails to clear  
away all trace of eczema or similar  
tormenting skin-eruptions.

Resinol Ointment and Resinol Soap are sold  
by all druggists. For trial free, write to Dept.  
D-2, Resinol, Baltimore, Md.

## **AGREE TO NO-STRIKE PLAN**

Nine Trades in War Work Take  
Action to End Disputes.

Action to prevent interruption of  
work through labor disputes in any  
of the arsenals, navy yards, or naval  
stations of the United States dur-  
ing the war, has been taken by the

nine trades employed in these ar-  
senals and stations, according to  
Grant Hamilton, of the Metal Trade  
Department of the American Federa-  
tion of Labor.

It has been agreed that there shall  
be no cessation of work if the Gov-  
ernment will take up for adjustment,  
in any reasonable time, any just  
grievances.

## **BAYONET WOUNDS FEW**

German Soldiers Find Little Use for  
This Weapon.

"No, there's very little bayonet  
work done by the Boches," said a  
Scotch sergeant discussing German  
methods of fighting. "I'll tell you a  
queer thing that happened to a chap  
in my lot. Some wounded got left

in a village we got into. We weren't  
meant to take it, but these chaps  
were eager and went on too far. Some  
of us went up to bring the wounded  
back on stretchers.

When we were just outside the  
village, the Germans put over a bar-  
rage—something terrific it was, and  
we ran back to a trench. This chap  
I'm talking about jumped down into  
it without looking out, and the first

thing he knew was that something  
had shot through his leg, and he  
saw the point of a bayonet sticking  
out of his thigh.

The trench was full of our reserves,  
and he had jumped down onto a  
man's bayonet. All the chap that  
owned the bayonet said was 'A  
blighty one for you, mate.' I've seen  
him since, and he said the doctor at  
the clearing station told him it was

only the second bayonet wound he'd  
seen during the war.

**PAINT BURNING STARTS FIRE.**  
Engine Company, No. 1, extinguished  
a fire late yesterday afternoon at the  
Louise Home for the Aged, 1800 Man-  
assett avenue northwest. The damage  
was estimated at \$200. The fire started  
on a side porch where painters were  
burning off paint.

# **THE COST OF LIVING HIGH or LOW**

Depends Largely Upon **WHERE** and **HOW** You Buy

## **Soda Crackers**

Right from the  
Wooden Box

That's one way to evade  
the present high prices on  
package goods.

Plain Soda Crackers  
**17c lb.**

Salted Soda Crackers  
**18c lb.**

One Peck Cornmeal 47c

**Olive Oil**

Get a can of Re-Umberto  
quick. Prices are soaring and  
your opportunity is right  
now.

**SANITARY** Stores need no introduction to the  
thrifty. They are the stores of quality groceries,  
and it takes 86 of them today to meet the demand  
for money-saving marketing opportunities like  
these.

## **SUGAR FOR PRESERVING**

Don't let a pound of fresh fruits perish. All indications point to high prices on  
canned fruits next winter. Tin, labor, and practically everything entering into fac-  
tory costs are much higher, and this will show up in the price of the finished prod-  
uct.

We are turning out vast quantities of sugar this week. Our 86 stores are busy  
sugar markets, and stocks in each store are being replenished daily.

Have the sugar in the house and you are ready for work at any time you get  
the fruit you want.

**We Have a Liberal Stock of Sugar on Hand**  
During this week, as long as our supply lasts, our price will be

**Granulated SUGAR 25 Pounds \$1.98**  
for

Smaller quantities, per lb., 8c.
